Docket No. 98N-1265 4 99 MAR 24 P1:42  
Food and Drug Administration

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: Don't allow large pharmaceutical companies to dictate what we, as women, must take in HRT. (Hormone Replacement Therapy). We want that choice of going the route of individually compounded medications over mass produced "one size fits all" medications and if it means ordering & receiving from out of my state of Idaho, so be it. The natural progesterone I receive from Madison Pharmacy has been perfect for me and I don't want to have any law proposed that would stop that. I also object to the definition "inordinate amount". That limitation could compromise my quality of life & choice of medication I prefer.
